PASSES CASS LAKE MEASURE

House Acts Favorably on Normal School Bill.

OBTAINED JUST ENOUGH VOTES

Sixty Representatives Voted in Favor of Locating the Institution at Cass Lake—Bill for Protection of Birds Is Passed—Game Species Exempt. Packing Plant Measure Is Killed.

St. Paul, April 3.—The house passed the Cass Lake normal school bill, which passed the senate a short while ago. Thus ends one of the most strenuously fought contests of many sessions. The bill secured just sixty votes, the exact number necessary for passage, while fifty-two voted against it and seven were absent.

In passing this bill the legislators have disregarded the wishes of a great majority of the educational people and the people who have children to send to school in the northwestern part of the state and they have disregarded the recommendations of the majority of the committee that went on the trip and visited all the towns in the northern part of the state that want a normal school. They have disregarded the figures and facts given them by the people of Thief River Falls, Warren and other towns in the Red River valley district showing that the school would accommodate more people if placed in some town in the valley than if placed at Cass Lake or that vicinity.

But Cass Lake and the Duluth people who have property there wanted the school there, and so Senator D. M. Gunn and Representative McGarry started out to get the school. Gunn and McGarry were good fellows, and the members liked them, and that helped. Then they voted against county option and tonnage tax, while the members from the Bemidji, Thief River Falls and Warren districts voted for these measures. The opponents of tonnage tax and county option voted with McGarry and Gunn, although, of course, there may not be any connection between these matters.

Bird Bill Is Passed.

Ostrich plumes will be precious to the women who has them if the senate passes the bill passed by the house known as H. F. 382, "a bill for an act for the protection of birds and their nests." But the woman with a whole bird on her hat might as well put it in the stove, for she can neither sell nor wear it, if the bill becomes law.

The bill is one introduced by C. E. Stone of St. Paul by request of the Society for the Prevention of Cruelty. The bill makes it unlawful for any person to "kill or catch or have in her possession, living or dead, any wild bird, or purchase, offer or expose for sale, transport or ship any such wild bird after it has been killed or caught." The effect of this cannot be anything else than to prohibit a woman from wearing a bird on her hat and to prohibit milliners from selling them.

However, game birds may be killed and used and their feathers worn, for they are excepted from the bill.

Neither can any one buy any canary birds or parrots after this, for although the bill permits people to take and keep birds as pets, it prohibits their sale.

The destruction of eggs and nests of birds is specifically prohibited.

Another section of the bill provides that it shall not apply to blackbirds and similar birds, which may do harm to farmers' crops and poultry.

University Bill Killed.

The representatives killed the bill introduced last week by the alumni and friends of the university which required slaughter houses when erected within five miles of the state university to be subject to the regulations of the state board of health.

The bill was introduced after the house had killed the Rowe bill, which prohibited the erection of packing plants within five miles of the university. The authors were Representatives Holmberg, Saugstad, Ware, Dorsey, White, Fitzpatrick, Pfander and Noble. The bill was sent to the public health committee, which reported for the indefinite postponement of the bill. A minority report signed by J. D. O'Brien and W. H. Westcott recommended that the bill pass. On a motion to adopt the minority report there were thirty yeas and seventy-nix nays.

The house passed T. J. Brady's bill prohibiting the overloading of street cars after they had amended it so that thirty-five straphangers instead

of fifteen would be the limit for each car.

An eloquent plea from R. J. Wells of Breckenridge resulted in the passage in the house of a bill introduced by W. A. Campbell of Minneapolis creating a women's department under the state labor bureau. The bill provides for an assistant commissioner of labor who is to be a woman and women inspectors to work under her and inquire into the conditions of the places where women work.

The house reconsidered the vote on the bill passed Thursday raising the university tax from .23 to .50 mill.

PRIEST MUST GO TO PRISON

Given Six Months in Jail for Sending Blackmailing Letter.

St. Joseph, Mo., April 3.—The Rev. Father Daniel Pembroke, formerly in charge of St. Patrick's parish at Maryville, Mo., was given six months in jail by a criminal court jury for sending a blackmailing letter to Bishop M. E. Burke of the St. Joseph diocese.

Pembroke was suspended by Bishop Burke following an investigation which resulted from difficulties between the editor of a Maryville paper and the priest. Pembroke contended the case was never finally adjudicated. He demanded \$65,000 for his loss of income, rent on land, etc., and in the letter made the threat that he would "expose" the bishop.

The bishop testified that the case was decided at Rome in his favor. He contended that he had the right under the canon law to suspend Pembroke. Pembroke's letter, which contained obscene epithets, was introduced in evidence.

PAYNE TARIFF BILL SEVERELY CRITICISED

Democrats Say It Is Filled With Imperfections.

Washington, April 3.—That the Payne bill was filled with riotous imperfections, was a false pretense, was designed to cover up the extravagances of the Republican administration, that it did not redeem party pledges and that it sounded the death knell of the dominant party, were some of the criticisms passed upon the measure by the Democrats in the house.

An interesting feature of the debate was the speech of Pablo Campo De Leon, Philippine commissioner, who attacked the provision for free trade with the Philippine islands. From the far South exactly opposite views were expressed regarding protection. Mr. Ransdell of Louisiana pleading for it on behalf of the industries of his state, while Mr. Spright of Mississippi and Mr. Clayton of Alabama wanted free lumber, hides, boots, shoes, bagging and cotton ties. The speech of Mr. Clayton was of considerable length and he engaged in several heated colloquies with members on the Republican side.

From the Republicans came suggestions of a permanent tariff commission, and while all of them supported the bill in general, none appeared entirely satisfied with it.

Others who spoke on the measure were Messrs. Moore (Pa.), Young (N. Y.), Lindbergh (Minn.), Bowers (Miss.), Langley (Ky.), Covington (Md.), Burke (Pa.), Townsend and Hamilton (Mich.), Morse (Wis.), Cullop (Ind.), Copp (Wis.) and Chandler (Miss.).

The speeches at the night session for the most part were along the lines of those previously made. Mr. Currier (N. H.) opposed the rates imposed by the Payne bill on wood pulp and print paper, contending that they do not provide sufficient revenue.

Mr. Heflin (Ala.) severely arraigned the Republican party, while Representatives Rucker (Mo.), Goldfogle (N. Y.), Dixon (Ind.), Cline (Ind.) and Ferris (Okla.) opposed the Payne bill as a whole. Mr. Davis (Minn.) argued for free lumber and Mr. Fowler (N. J.) urged the creation of a tariff commission. Mr. Hughes (N. J.) claimed that the Republican party favors free trade in only one commodity, which he said was labor.

Two Executions in Montana.

Butte, Mont., April 3.—William Hayes was executed at Deer Lodge penitentiary for complicity in the murder of Deputy Warden Robinson one year ago, during an attempted prison break, and Frederick Labean was hanged at Kallspell for the murder of William F. Yoakum and Riley Yoakum, father and son, June 17, 1908.

NARROW ESCAPE FOR ROOSEVELT

Former President Swept From Boat Into the Sea.

RESCUED BY TWO SAILORS

Tars Catch Him as a Wave Sweeps

Him Towards the Side of the Steamer Hamburg—Patriotism Responsible for the Mishap to the Former Chief Executive, Who Stood Up When Band Played National Anthem.

Gibraltar, April 3.—Theodore Roosevelt was in serious danger Tuesday afternoon off Ponta del Gada in the Azores. A great wave swept him into the sea from a small boat in which he was returning from a visit to that city. He might have lost his life, had not two brawny sailors caught him when another wave pitched him toward the side of the Hamburg.

Mr. Roosevelt's patriotism placed him in danger. He had been visiting the American consul at Ponta del Gada and as the small boat neared the side of the liner on the return trip the band struck up "The Star Spangled Banner."

The former president rose and bared his head in respect for the anthem. Two sailors held him, the sea running high and choppy. The national hymn ended, the boat was pitched beside the Hamburg and Mr. Roosevelt made a flying leap for the rope ladder that dangled from the side of the vessel. Just then the big wave tossed the boat, threw him off his balance and he went into the sea. He is a sturdy swimmer, but he might have had a hard time of it in the rough water if the succeeding wave had not tossed him up almost to the foot of the rope ladder. Two seamen who were hanging to that grabbed his arms and held him until he got a grip on the lowest rung and clambered up.

He went at once to his cabin and took off his wet clothing. His fellow passengers gave him a rousing cheer when he appeared again at dinner. This was the most striking incident since the distinguished traveler left the last point from which a cable message might have been sent.

Another incident, which Mr. Roosevelt enjoyed even less than his ducking, was an attack of seasickness which seized him Saturday.

UNABLE TO OBTAIN BAIL

Alleged Embezzler Is in City Jail at Baltimore.

Baltimore, April 3.—William F. Downs, the young stock clerk of the city register's office, is in the city jail in default of bail fixed by Judge Wright in the criminal court at \$87,500. The grand jury returned thirty-five indictments against him charging him with larceny of money belonging to the city to the amount of \$28,580.

An auditing company is now at work on the books of the office in which Downs was employed, but thus far the amount of the shortage is not known to exceed the amount already announced, slightly over \$67,000.

TESTIMONY IS SENSATIONAL

Wisconsin Game Warden Admits Committing Perjury.

CONFESSES IT WAS FALSE

James W. Stone Says His Testimony Before the Senatorial Primary Investigating Committee Three Weeks Ago Was Untrue—Also Says Game Warden Raised Money for Governor Davidson's Campaign Fund.

Madison, Wis., April 3.—Chief Game Warden James W. Stone gave sensational testimony before the senatorial primary investigation committee, having confessed to perjury in that his testimony when he appeared before the committee three weeks ago in his examination as to the distribution of \$2,500 of the Stephenson campaign fund was false. In addition to this Mr. Stone informed the committee that the game warden raised a sum of \$1,200 which was given to Governor James O. Davidson for his campaign fund.

When Chief Warden Stone appeared about three weeks ago he told the committee he gave Deputy Warden H. A. Bowman \$500, when in fact he handed him \$1,250. He testified falsely, he said, in order to "protect" Bowman from showing that he received so large a sum. It developed that the evening after he first testified, a meeting was held at his home at which three wardens agreed to assume having received a total of \$500, which in fact they never received. The deputies, Stone said, had not kept their agreement.

The witness presented a list showing how he disposed of something over \$200, which was materially different from the list offered when he first appeared before the committee.

The \$1,200 campaign fund presented to Governor Davidson, Mr. Stone declared, was delivered in three installments, two of \$500 each and the third, \$200. Stone testified that when he delivered the first \$500 in an envelope, the governor asked him what it was, and witness remarked, "ask me no questions and I'll tell you no lies." The governor, according to the witness, "obeyed orders."

Mr. Stone testified that when he was deputy game warden he received instructions indirectly from two different chiefs to do political work and it had always been his custom to contribute to campaign funds.

As far as Mr. Stone knew, Governor Davidson never solicited a campaign contribution. P. J. Koehler, organizer for S. A. Cook, Republican candidate, told of disbursing between \$8,000 and \$9,000

in Milwaukee and other counties, and testified that two of Cook's men were bought away with \$150 of Stephenson money.

MONEY STILL IN THE BANK

Governor Davidson Says He Did Not Use Stone's Funds.

Soldiers Grove, Wis., April 3.—Governor J. O. Davidson explained the \$1,200 incident testified to by Game Warden J. W. Stone by saying that he had never been able to get an explanation from Mr. Stone and that the money is still in the bank at Mr. Stone's order. He said Mr. Stone laid the money in an envelope on his desk, saying, "ask me no questions and I'll tell you no lies." The envelope was put away and all efforts to get an explanation failed. The money was later deposited in a bank and still remains there, waiting for Mr. Stone to claim it. Governor Davidson said he asked for no contribution to his campaign expenses from the game wardens.

MINERS REFUSE TO WORK

First Trouble in the Anthracite Region Occurs.

Wilkesbarre, Pa., April 3.—The first trouble in the anthracite region since the expiration of the three-year agreement has developed at the Keystone colliery of the Traders Coal company at the Ridgewood mine, four miles from here. The miners had a dispute over yardage and the shuffling of rock and as a result refrained from working. They have enlisted the assistance of National Organizer McCluskey and District Board Member McCue in an effort to have their grievance adjusted. The men say there has been a gradual reduction in the prices paid for the class of work mentioned, but officials of the company maintain that the same rates prevail as have been in force for a number of years.

TRIED TO SAVE HIS PARENTS

Pittsburg Man Found His Mother Dead and Father Badly Burned.

Pittsburg, April 3.—John Ott of Heidelberg, a suburb, carried his father and mother out of their burning home only to find that his father was badly burned and his mother was dead. Ott was returning from a walk when he found his home was on fire. Rushing in ahead of the firemen he found his father peacefully smoking a pipe. Carrying him to safety, Ott rushed in after his mother and carried her out before he discovered she had been burned to death before he found her.

Motor Boat Races Sunday.

Nice, France, April 3.—The international motor boat races, in which boats representing several nations are entered, will begin at Monaco tomorrow and will continue until April 11. This year's Monaco motor boat races are the sixth annual event of that character and eclipse in interest any of the preceding meets. There is one American entry, the Dixie II.

LEADER OF BLACK HAND CAPTURED

Blackmailer Caught by Officers in Chicago.

Chicago, April 3.—Vincenzo Geraci, said by the police to be the leader of the Chicago Black Hand society, was arrested here in the office of Dr. Peter Cutrera, from whom the Italian had demanded \$3,000 on pain of death.

Geraci, it is said, has given evidence concerning his associates in the plot and the police expect to arrest several more members of the gang. It is thought that the members of the Chicago society are in close touch with the New York gang that brought about the death of Lieutenant Petrosino recently in Italy.

Dr. Cutrera several days ago received a threatening letter demanding \$3,000. He paid no attention to it. A second letter was received. Finally the physician received a telephone message from a man who said he was one of those who had written the letters.

"Unless you pay us the money you will be killed within an hour," said the man on the telephone.

Dr. Cutrera invited the man to come to his office and sent for the police. Detectives came and were concealed in an adjoining room.

Geraci came and asked for the money. The arrest followed.

Suspect Not W. D. Owen.

Augusta, Ga., April 3.—Officers from Boston, who have arrived here, declared that W. W. Fowler, who has been under arrest here, was not W. D. Owen, who is wanted in Boston on charges of fraud. Fowler was at once released.

Geraci, it is said, has given evidence concerning his associates in the plot and the police expect to arrest several more members of the gang. It is thought that the members of the Chicago society are in close touch with the New York gang that brought about the death of Lieutenant Petrosino recently in Italy.

Dr. Cutrera several days ago received a threatening letter demanding \$3,000. He paid no attention to it. A second letter was received. Finally the physician received a telephone message from a man who said he was one of those who had written the letters.

"Unless you pay us the money you will be killed within an hour," said the man on the telephone.

Dr. Cutrera invited the man to come to his office and sent for the police. Detectives came and were concealed in an adjoining room.

Geraci came and asked for the money. The arrest followed.

Suspect Not W. D. Owen.

Augusta, Ga., April 3.—Officers from Boston, who have arrived here, declared that W. W. Fowler, who has been under arrest here, was not W. D. Owen, who is wanted in Boston on charges of fraud. Fowler was at once released.

THE DAILY DISPATCH

By Ingersoll & Wieland

SUBSCRIPTION RATES
One Month..... Forty Cents
One Year, strictly in advance, Four Dollars

Office in Dispatch Building on 6th St., opposite the Post Office.

Entered at the post-office at Brainerd, Minn., as second-class matter.

SATURDAY, APRIL 3, 1909.

WEATHER FORECAST

Partly cloudy tonight with warmer west portion, Sunday probably showers.

THE bill to allow members of the legislature to draw their second year's pay a year in advance will be known as the "salary grab."

BOYS under eighteen years or minors who are attending school cannot bowl in public places nor play pool or billiards if the Mork house bill becomes a law.

GOV. JOHNSON says he will not be a candidate for governor again but he also says he does not blame the republicans for placing him in the Ananias class for saying so.

THE last of the five suspects in the Kintop murder case in Little Falls has been examined and discharged. The murder occurred in 1905 and in all probability the perpetrator of the crime will never be apprehended.

SUNDAY base ball will be legal if a bill which has passed the house becomes a law. Under its provisions it will be legal to play the national game between the hours of 1 and 6 p. m. As the law now stands participants in games of this kind on the Sabbath day are liable to arrest.

THE bill before the legislature to locate the sixth normal school at Cass Lake passed the house late last night and now only needs the governor's signature to become a law. The bill as it passed makes no appropriation but establishes a new normal school to be taken care of financially by a later legislature.

THE citizens of Brainerd should carefully consider the qualifications of the various candidates for city offices and then vote for the ones they would be willing to entrust their private affairs with. There is no reason to think that the right man or men will not be elected if sufficient thought is given the matter, and it is up to the people to decide.

THE idea of the Minnesota house seems to be that beer, not breakfast necessities, should bear the burden of taxation under the new tariff bill and they have petitioned congress to add 50 cents a barrel on beer and eliminate the tax on tea and coffee. Tax the luxuries instead of the necessities and those who can best afford will be obliged to stand the burden.

WHILE the question of good politics is questioned by some of Gov. Johnson's supporters in his appointment of Chas. E. Vasaly, of Little Falls, to the state board of control there are none who question his good judgment in selecting a man fully capable of filling the position. The term is for six years and the salary is \$3,500 per year. Mr. Vasaly's newspaper friends in all parts of the state irrespective of politics will extend their congratulations.

THE election to be held in this city on Tuesday next is a matter of some importance to the tax payers and those who have the city's interest at heart—in fact it is a matter in which every citizen should take an interest. The election of a mayor who will be at the head of the city government for the coming two years, and the election of an entirely new city council, should, at least, call for the careful consideration of the candidates who are seeking the places. That the city government should be placed in the hands of competent men ought to be a consideration ahead of any party affiliation, political or personal feeling. In city affairs the best government obtainable should be

the paramount issue, and no man who is not tied to a hobby will dispute this statement, and while men's opinions differ along the line as to whom the best candidates are to represent the government of the city in the manner that would attain that end, if the main object is kept in view, we cannot go very far wrong in selecting our city legislative body and its executive officer, and upon them depend the successful operation of the business of the commonwealth. The election of a mayor should not depend on whether he is a republican, socialist or a democrat, but whether he is a man to whom you would entrust the management of your private affairs and your business interests, and in the matter just ask yourself the question as to whether you wish to vote for a candidate whose record for successful business management covers a period of 25 years, or one you know nothing about in that connection, no matter how good his intentions are, or how badly his friends wish you to help them win the victory. It is your property and your pocket-book that is affected, and the ambition of any man should be a secondary consideration in this connection. The man whose money is invested in business enterprises and who has large real estate holdings, will certainly be on the alert to protect those interests if he is elected as mayor of the city where his investments are, and when his interests are protected the interests of every taxpayer in the city receives the same attention. The Dispatch believes that the argument is largely in favor of the candidacy of D. M. Clark and that the matter should be given serious consideration by the people of this city. It is a time in the city's history when no mistake should be made.

Lost or Burned

The residence of Arthur Swanson, at the south end of 19th street, was destroyed by fire last evening. The family was at the home of a neighbor when the fire broke out and the cause is unknown, but it is supposed to have been caused by a defective flue as it started in the second story. The building which was built by F. C. Larison about three years ago, and recently sold by Judge Geo. W. Holland to Mr. Swanson and was valued at about \$1500. There was \$800 insurance. A large portion of the household goods were saved, but there was considerable up stairs and in the cellar which was destroyed. Two fine gold watches, a valuable diamond ring and other jewelry and about \$15 in money was destroyed also. There was \$600 insurance on the household goods.

Right of Recall—"String Attachment"

EDITOR DAILY DISPATCH and Fellow Citizens:—

The Right of Recall or "string attachment" so called by the Brainerd Tribune, seems to be the last "hobby" of this noted paper.

This "bugaboo" will also fade away when it is explained to the people in an honest way.

The "right of recall" is only a reserved privilege or power, by means of which, the "people" or a majority of voters can, at any time, remove from office "their public servants," who fail to comply with the expressed wish of the people.

Now, Mr. Voter—isn't this "right of recall" just the power or "string" the people want and should have on their public servants, when such servants are known to be grafters, or disobeying the wish of the people?

Is the Tribune unaware of the fact that many cities, including Des Moines, Iowa, with a population of over 75,000 inhabitants, have incorporated the "string attachment," or "right to recall" in their city charter, whereby, the voters of these cities have the power to remove from office all dishonest servants?

The following is a part of Sec. 18 of the Des Moines charter:

"Sec. 18. The holder of any elective office may be removed at any time by the electors qualified to vote for a successor of such incumbent. The procedure to effect the removal of an incumbent of an elective office shall be as follows: A petition signed by electors, entitled to vote for a successor to the incumbent sought to be removed, equal in number to at least twenty-five percentum of the entire vote for all candidates for the office of mayor at the last preceding general municipal election, demanding an election of a successor of the person sought to be removed shall be filed with the city clerk, which petition shall contain a general statement of the grounds for which the removal is sought, etc."

I believe that this would have met the approval of the people had this safe guard been incorporated in our charter by the recent charter commission.

If the writer of "string attachment" would exert some of his time and energy in trying to induce our legislative member to enact such laws as "right to recall," he would render a valuable service to our community, and city of Brainerd.

Yours respectfully,
A. OUSDAHL.

The Riverside Gun Club is planning for an active season of trap shooting sport and will hold a meeting at the office of Smith Bros. Sunday afternoon, April 4, at 3 o'clock, at which all members are requested to be present.

To The Citizens of Brainerd

Whereas:—

The following paragraph appeared in Brainerd Daily Dispatch over the signature of A. J. Halsted, editor of the Brainerd Tribune, in the issue of the Dispatch of March 29, 1909:

"However, I am not prepared to believe that the intelligent voters of the city of Brainerd will accommodate Mr. Ousdahl and his party by affording him an opportunity to appoint his followers to the most responsible positions in the city government."

And whereas:—

Said paragraph is an open attack and encroaches upon the intelligence of the citizens of Brainerd, Therefore be it resolved:—

That we the undersigned organizations condemn Mr. Halsted for the course he has pursued in the present election, and most particularly do we condemn the insinuation that those of the citizens of Brainerd who vote for Mr. Ousdahl are not "intelligent," as an open insult to the working class of this city.

We believe that right buying and selling is simply being as fair with each other as we both know how to be—and sharing profits.

We believe that our part is to look to the honesty of the goods we sell you, even more closely than you look when you buy.

To make only promises that we can keep, and, having made them, to keep them at all costs—under all conditions.

To avoid the unreliable. To sell only goods that we can back with our word and our money.

It's easy to live up to that creed with clothes made by

Prompt Relief From Indigestion and all Your Stomach Trouble

RELIEF IS WAITING FOR YOU

Don't Continue to Suffer When

Such Absolute Relief is so Handy and Certain

Why not start now—today, and forever rid yourself of Stomach trouble and Indigestion? A dieted stomach gets the blues and grumbles. Give it a good eat, then take Pape's Diapiesin to start the digestive juices working. There will be no dyspepsia or belching of gas or eruptions of undigested food; no feeling like a lump of lead in the stomach or heartburn, sick headache and dizziness, and your food will not ferment and poison your breath with nauseous odors.

Pape's Diapiesin costs only 50 cents for a large case at any drug store here, and will relieve the most obstinate case of indigestion and upset stomach in five minutes.

There is nothing else better to take gas from stomach and cleanse the stomach and intestines, and besides, one triangle will digest and prepare for assimilation into the blood all your food the same as a sound, healthy stomach would do it.

When Diapiesin works, your stomach rests—gets itself in order, cleans up—and then you feel like eating when you come to the table, and what you eat will do you good.

Absolute relief from stomach misery is waiting for you as soon as you decide to begin taking Diapiesin. Tell your druggist that you want Pape's Diapiesin, because you want to be thoroughly cured of indigestion.

The residence of Arthur Swanson, at the south end of 19th street, was destroyed by fire last evening. The family was at the home of a neighbor when the fire broke out and the cause is unknown, but it is supposed to have been caused by a defective flue as it started in the second story. The building which was built by F. C. Larison about three years ago, and recently sold by Judge Geo. W. Holland to Mr. Swanson was valued at about \$1500. There was \$800 insurance. A large portion of the household goods were saved, but there was considerable up stairs and in the cellar which was destroyed. Two fine gold watches, a valuable diamond ring and other jewelry and about \$15 in money was destroyed also. There was \$600 insurance on the household goods.

Right of Recall—"String Attachment"

EDITOR DAILY DISPATCH and Fellow Citizens:—

The Right of Recall or "string attachment" so called by the Brainerd Tribune, seems to be the last "hobby" of this noted paper.

This "bugaboo" will also fade away when it is explained to the people in an honest way.

The "right of recall" is only a reserved privilege or power, by means of which, the "people" or a majority of voters can, at any time, remove from office "their public servants," who fail to comply with the expressed wish of the people.

Now, Mr. Voter—isn't this "right of recall" just the power or "string" the people want and should have on their public servants, when such servants are known to be grafters, or disobeying the wish of the people?

Is the Tribune unaware of the fact that many cities, including Des Moines, Iowa, with a population of over 75,000 inhabitants, have incorporated the "string attachment," or "right to recall" in their city charter, whereby, the voters of these cities have the power to remove from office all dishonest servants?

The following is a part of Sec. 18 of the Des Moines charter:

"Sec. 18. The holder of any elective office may be removed at any time by the electors qualified to vote for a successor of such incumbent. The procedure to effect the removal of an incumbent of an elective office shall be as follows: A petition signed by electors, entitled to vote for a successor to the incumbent sought to be removed, equal in number to at least twenty-five percentum of the entire vote for all candidates for the office of mayor at the last preceding general municipal election, demanding an election of a successor of the person sought to be removed shall be filed with the city clerk, which petition shall contain a general statement of the grounds for which the removal is sought, etc."

I believe that this would have met the approval of the people had this safe guard been incorporated in our charter by the recent charter commission.

If the writer of "string attachment" would exert some of his time and energy in trying to induce our legislative member to enact such laws as "right to recall," he would render a valuable service to our community, and city of Brainerd.

Yours respectfully,

A. OUSDAHL.

To The Citizens of Brainerd

Whereas:—

The following paragraph appeared in Brainerd Daily Dispatch over the signature of A. J. Halsted, editor of the Brainerd Tribune, in the issue of the Dispatch of March 29, 1909:

"However, I am not prepared to believe that the intelligent voters of the city of Brainerd will accommodate Mr. Ousdahl and his party by affording him an opportunity to appoint his followers to the most responsible positions in the city government."

And whereas:—

Said paragraph is an open attack and encroaches upon the intelligence of the citizens of Brainerd, Therefore be it resolved:—

That we the undersigned organizations condemn Mr. Halsted for the course he has pursued in the present election, and most particularly do we condemn the insinuation that those of the citizens of Brainerd who vote for Mr. Ousdahl are not "intelligent," as an open insult to the working class of this city.

NO DYSPEPSIA AFTER TODAY

Prompt Relief From Indigestion
and all Your Stomach
Trouble

RELIEF IS WAITING FOR YOU

Don't Continue to Suffer When
Such Absolute Relief is so
Handy and Certain

Why not start now—today, and forever rid yourself of Stomach trouble and Indigestion? A dieted stomach gets the blues and grumbles. Give it a good eat, then take Pape's Diapepsin to start the digestive juices working. There will be no dyspepsia or belching of gas or eruptions of undigested food; no feeling like a lump of lead in the stomach or heartburn, sick headache and dizziness, and your food will not ferment and poison your breath with nauseous odors.

Pape's Diapepsin costs only 50 cents for a large case at any drug store here, and will relieve the most obstinate case of indigestion and upset stomach in five minutes.

There is nothing else better to take gas from stomach and cleanse the stomach and intestines, and besides, one triangle will digest and prepare for assimilation into the blood all your food the same as a sound, healthy stomach would do it.

When Diapepsin works, your stomach rests—gets itself in order, cleans up—and then you feel like eating when you come to the table, and what you eat will do you good.

Absolute relief from stomach misery is waiting for you as soon as you decide to begin taking Diapepsin. Tell your druggist that you want Pape's Diapepsin, because you want to be thoroughly cured of indigestion.

WOMEN'S WOES

Brainerd Women Are Finding Relief at Last

It does seem that women have more than a fair share of the aches and pains that afflict humanity; they must "keep up," must attend to duties in spite of constantly aching backs, or headaches, dizzy spells, bearing-down pains; they must stoop over, when to stoop means torture. They must walk and bend and work with racking pains and many aches from kidney ills. Kidneys cause more suffering than any other organ of the body. Keep the kidneys well and health is easily maintained. Read of a remedy for kidneys only that helps and cures the kidneys and is endorsed by people you know.

Mrs. J. H. Zellers, living at 915 Main St., Brainerd, Minn., says: "I just as enthusiastically recommend Doan's Kidney Pills now, as I did several years ago. Prior to that time I suffered a great deal from dull, heavy pains across the small of my back and over the kidney region. There was also a miserable, bearing-down sensation through my loins and I could not stoop without suffering intensely. The secretions from my kidneys plainly showed a derangement of these organs and I was in very poor health. Learning of Doan's Kidney Pills I procured a box from H. P. Dunn's drug store, and the results of their use were very satisfactory. I was helped from the first and a continued use resulted in a complete cure. I can recommend Doan's Kidney Pills at the present time even more highly than I did in a previous statement as no symptom of kidney trouble has since reappeared."

ADMINISTRATION OF TARIFF BILL

President Taft Informed of the Senate Programme.

WILL APPLY TO ALL COUNTRIES

Minimum Tariff to Be in Force for One Year, After Which the Maximum Rates Will Go Into Effect Against All Countries Which in the Opinion of the President Are Not Giving the United States Their Best Tariff Rates.

Washington, April 3.—President Taft has been informed of the senate programme for the administration of the new tariff bill. It provides that a minimum tariff shall apply to all countries for one year. At the end of that time the maximum rates will go into effect against all countries, which in the opinion of the president are not giving the United States their best tariff rates.

The president is understood to favor strongly this idea of application of the maximum and minimum principle and it is believed that it will be the plan finally agreed upon. The plan of administering the minimum and maximum rates in the house bill as it now stands is said to be more indefinite and less effective than the one proposed by the senate finance committee.

Prior to the cabinet meeting President Taft had a conference with Chairman Aldrich of the senate finance committee and Secretary of the Treasury MacVeagh. Senator Aldrich assured the president that the committee is making most satisfactory progress with the tariff bill and said there would be little or no delay in taking the matter up in the senate after a vote in the house.

Discussion Will Be Resumed.

The administrative features of the senate bill were then taken up for discussion, which will be resumed at the White House next week. Senator Aldrich has gone to New York. The finance committee will not meet in his absence.

There have been more or less apparently authentic reports that the majority sentiment in the senate was opposed to the minimum and maximum principle as enunciated in the Payne bill. President Taft has not shared this belief, and he received definite assurance as to the correctness of his position when Senator Aldrich outlined to him his own position and that of the majority of the finance committee as to the plan of administration to be provided for in the senate measure which has further the support of a supreme court decision as to its constitutionality. The difference between the minimum and maximum rates will be 20 per cent. It is planned that for nine months or one year the minimum rate, which will be fixed as the protective rate, shall apply to all countries without distinction or discrimination. At the end of this period the maximum rates automatically will go into effect against all countries which in the opinion of the executive are not giving to the United States their most favored nation clauses. In other words, it will require affirmative action by the president, after a thorough inquiry, to give to any nation the benefit of the minimum American rate.

The Story of a Medicine.

Its name—"Golden Medical Discovery" was suggested by one of its most important and valuable ingredients—Golden Seal root.

Nearly forty years ago, Dr. Pierce discovered that he could, by the use of pure, triple-refined glycerine, aided by a certain degree of constantly maintained heat and with the aid of apparatus and appliances designed for that purpose, extract from our most valuable native medicinal roots their curative properties much better than by the use of alcohol, so generally employed. So the now world-famed "Golden Medical Discovery" is the result of the cure of weak stomach, indigestion, or dyspepsia, torpid liver, or biliousness and kindred derangements was first made, as it ever since has been, without a particle of alcohol in its make-up.

A glance at the full list of its ingredients, printed on every bottle-wrapper, will show that it is made from the most valuable medicinal roots found growing in our American forests. All these ingredients have received the strongest endorsement from the leading medical experts, teachers and writers on Materia Medica who recommend them as the very best remedies for the diseases for which "Golden Medical Discovery" is advertised. A little book of these endorsements has been compiled by Dr. R. V. Pierce, of Buffalo, N. Y., and will be mailed free to any one asking same by postal card, or letter addressed to the Doctor as above. From these endorsements, copied from standard medical books of all the different schools of practice, it will be found that the ingredients composing the "Golden Medical Discovery" are advised not only for the cure of the above mentioned diseases, but also for the cure of all catarrhal, bronchial and throat affections, accompanied with catarrhal discharges, hoarseness, sore throat, lingering, or long-on-coughs, and all those wasting affections which, if not promptly and properly treated are liable to terminate in consumption. Take Dr. Pierce's Discovery in time and persevere in its use until you give it a fair trial and it is not likely to disappoint. Too much must not be expected of it. It will not perform miracles. It will not cure consumption in its advanced stages. No medicine will. It will cure the affections that lead up to consumption, if taken in time.

WOMEN'S WOES

Brainerd Women [are Finding Relief at Last

It does seem that women have more than a fair share of the aches and pains that affect humanity; they must "keep up," must attend to duties in spite of constantly aching backs, or headaches, dizzy spells, bearing-down pains; they must stoop over, when to stoop means torture. They must walk and bend and work with racking pains and many aches from kidney ills. Kidneys cause more suffering than any other organ of the body. Keep the kidneys well and health is easily maintained. Read of a remedy for kidneys only that helps and cures the kidneys and is endorsed by people you know.

Mrs. J. H. Zellers, living at 915 Main St., Brainerd, Minn., says: "I just as enthusiastically recommend Doan's Kidney Pills now, as I did several years ago. Prior to that time I suffered a great deal from dull, heavy pains across the small of my back and over the kidney region. There was also a miserable, bearing-down sensation through my loins and I could not stoop without suffering intensely. The secretions from my kidneys plainly showed a derangement of these organs and I was in very poor health. Learning of Doan's Kidney Pills I procured a box from H. P. Dunn's drug store, and the results of their use were very satisfactory. I was helped from the first and a continued use resulted in a complete cure. I can recommend Doan's Kidney Pills at the present time even more highly than I did in a previous statement as no symptom of kidney trouble has since reappeared."

ADMINISTRATION OF TARIFF BILL

President Taft Informed of the Senate Programme.

WILL APPLY TO ALL COUNTRIES

Minimum Tariff to Be in Force for One Year, After Which the Maximum Rates Will Go Into Effect Against All Countries Which in the Opinion of the President Are Not Giving the United States Their Best Tariff Rates.

Washington, April 3.—President Taft has been informed of the senate programme for the administration of the new tariff bill. It provides that a minimum tariff shall apply to all countries for one year. At the end of that time the maximum rates will go into effect against all countries, which in the opinion of the president are not giving the United States their best tariff rates.

The president is understood to favor strongly this idea of application of the maximum and minimum principle and it is believed that it will be the plan finally agreed upon. The plan of administering the minimum and maximum rates in the house bill as it now stands is said to be more indefinite and less effective than the one proposed by the senate finance committee.

Prior to the cabinet meeting President Taft had a conference with Chairman Aldrich of the senate finance committee and Secretary of the Treasury MacVeagh. Senator Aldrich assured the president that the committee is making most satisfactory progress with the tariff bill and said there would be little or no delay in taking the matter up in the senate after a vote in the house.

Discussion Will Be Resumed.

The administrative features of the senate bill were then taken up for discussion, which will be resumed at the White House next week. Senator Aldrich has gone to New York. The finance committee will not meet in his absence.

There have been more or less apparently authentic reports that the majority sentiment in the senate was opposed to the minimum and maximum principle as enunciated in the Payne bill. President Taft has not shared this belief, and he received definite assurance as to the correctness of his position when Senator Aldrich outlined to him his own position and that of the majority of the finance committee as to the plan of administration to be provided for in the senate measure which has further the support of a supreme court decision as to its constitutionality. The difference between the minimum and maximum rates will be 20 per cent. It is planned that for nine months or one year the minimum rate, which will be fixed as the protective rate, shall apply to all countries without distinction or discrimination. At the end of this period the maximum rates automatically will go into effect against all countries which in the opinion of the executive are not giving to the United States their most favored nation clauses. In other words, it will require affirmative action by the president, after a thorough inquiry, to give to any nation the benefit of the minimum American rate.

The Story of a Medicine.

Its name—"Golden Medical Discovery"—was suggested by one of its most important and valuable ingredients—Golden Seal root.

Nearly forty years ago, Dr. Pierce discovered that he could, by the use of pure, triple-refined glycerine, aided by a certain degree of constantly maintained heat and with the aid of apparatus and appliances designed for that purpose, extract from our most valuable native medicinal roots their curative properties much better than by the use of alcohol, so generally employed. So the now famous "Golden Medical Discovery," or the cure of weak stomach, indigestion, or dyspepsia, torpid liver, or biliousness and kindred derangements was first made, as it ever since has been, without a particle of alcohol in its make-up.

A glance at the full list of its ingredients, printed on every bottle-wrapper, will show that it is made from the most valuable medicinal roots found growing in our American forests. All these ingredients have received the strongest endorsement from the leading medical experts, teachers and writers on Materia Medica who recommend them as the very best remedies for the diseases for which "Golden Medical Discovery" is advised.

A little book of these endorsements has been compiled by Dr. E. V. Pierce, of Buffalo, N. Y., and will be mailed free to any one asking same by postal card, or letter addressed to the Doctor as above. From these endorsements, copied from standard medical books of all the different schools of practice, it will be found that the ingredients composing the "Golden Medical Discovery" are advised not only for the cure of the above mentioned diseases, but also for the cure of all catarrhal, bronchial and throat affections, accompanied with catarrhal discharges, hoarseness, sore throat, lingering, or long-on-coughs, and all those wasting affections which, if not promptly and properly treated are liable to terminate in consumption. Take Dr. Pierce's Discovery in time and persevere in its use until you give it a fair trial and it is not likely to disappoint. Too much must not be expected of it. It will not perform miracles. It will not cure consumption in its advanced stages. No medicine will cure the affections that lead up to consumption, if taken in time.
